SUMMARY

Analytical and detail-driven M.Tech Cyber Security student aspiring for a Business Analyst role, bringing experience in requirement understanding, documentation, SQL, and system analysis to support data-driven business decision-making and secure solution delivery.

EDUCATION

NMAM Institute of Technology

- M.Tech in Cyber Security (CGPA: 8.5) Karnataka, India.

Alva's Institute of Engineering and Technology

- B.E. in Computer Science and Engineering (CGPA: 7.51) Karnataka, India.

Sharada Vidyanikethana PU College

- Karnataka Secondary Education EXamination Board. (Percentage: 66%) Karnataka, India

Jai Matha Senior Secondary School

- Central Board of Secondary Education. (Percentage: 62.5%) Kerala, India
-

TECHNICAL SKILLS

Programming: Python, C, Java

Security Tools: Metasploit, Wireshark, Burp Suite, Nmap.

Cybersecurity Domains: Penetration Testing, Digital Forensics, OWASP, Blockchain

Cloud & Infrastructure: Docker, Cloud Identity Management, Kubernetes

Data Analysis: Python Libraries, Excel, SQL.

PROJECTS

1. Healthcare Management and Price Comparison System

Description: Developed a web application based on client requirements for doctors, allowing comparison of medical item costs from various vendors and displaying the best options. The system ensures an efficient and user-friendly interface for price comparison and decision-making.

2. Real-Time Online Communication Monitoring and Suspicious Activity Detection

Developed a real-time system that monitors and analyzes online chat messages. The system uses Natural Language Processing (NLP) and Machine Learning techniques to identify malicious intent, cyberbullying, phishing attempts, and other suspicious activities in communication.

3. Link Sentinel – Web Application Security Analyzer

Project Description: Built a web tool to analyze website safety using URL validation, DNS inspection, browser checks, and server vulnerability scanning via Shodan.

Tools Used: Python, Flask, HTML, CSS, JavaScript, Node.js, Shodan API, MySQL

Outcome: Delivered risk scores and verdicts to enhance website security awareness.

RESEARCH AND PUBLICATIONS

1. Accountable cross border data sharing using Blockchain.
 2. Machine Learning in the field of Pharmacy.
 3. A Review on Internet of Things.
-

INTERNSHIPS

- 1.QSpiders: Hands-on training in Java Full Stack Development, Data Structures & Algorithms, and AI/ML, gaining essential technical and problem-solving skills.
 - 2.10 Seconds & Aerodynamiks: Developed soft skills for professional success at Aerodynamiks and enhanced aptitude and problem-solving abilities through specialized training at 10 Seconds.
 - 3.Quiph Media Pvt. Ltd: Gained experience in manual software testing, identifying bugs, documenting test cases, and ensuring software quality.
 - 4.DLithe: Worked on a CRUD application using Python, Flask, and MySQL, focusing on database management and creating a user-friendly interface.
-

CERTIFICATIONS

CISCO certified support Technician Networking.
ServiceNow Certified Application Developer.
Cybersecurity Foundations: Governance, Risk, and Compliance (GRC)
Google Cybersecurity Professional Certificate.
NPTEL certificate in Blockchain and its Applications, Internet of Things.

ACHIEVEMENTS

1. Part of Faculty Development Training by WIPFLI.
 2. Was part of the International Alvas Jamboree and Alva's Pragati as an official.
 3. Organizer and Leader of Tulu Forum and Readers club in Alva's.
 4. Have taken 2 months of C and Java Programming Classes for Students in Alva's college.
-

LANGUAGES

English , Hindi , Malayalam , Kannada ,Japanese[Beginner].
